Kirkland, WA 98034

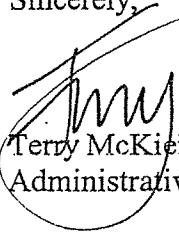

Dear Petr,

I wish to thank you for the camperships you made available to the children at Seattle Children's Home during this past summer. So often the children we serve are forgotten by society because of their behaviors and disorders. We need to keep reminding ourselves that these children may sometimes "act" poorly but that does not make them any less worthy of all the good life has to offer. In fact, they need it more...any help they get on their way to healing their hurts makes a difference.

Providing the children a camp experience helps them feel like their community cares about them. You gave those children a wonderful outdoor experience and a memory they will carry with them always. What a gift!

We look forward to participating again next year.

Sincerely,

Terry McKiel
Administrative Coordinator

Thanks Petr!
